

ACI MARINA CRES

SUMMARY OF INFORMATION FROM THE WASTE RECEPTION AND HANDLING PLAN

Information for port users – Article 61(4) of the Ordinance (Official Gazette 72/2021)

1 LOCATION OF PORT RECEPTION FACILITIES

Waste containers are located in the dry-berth area, behind the marina reception building, and in the car park near the INA petrol station.

2 WASTE COLLECTION HOURS

Waste is collected daily during the marina reception's opening hours, which vary depending on the season. Waste collection must be arranged in advance through the marina reception.

3 TYPES OF WASTE AND SERVICES AVAILABLE

The marina accepts: sewage, municipal waste, glass, paper, metal and plastic packaging, waste engine oil, batteries, filters, oil-contaminated packaging, oily rags, sludge from wastewater treatment, and other hazardous and non-hazardous waste.

4 CONTACTS – OPERATORS AND SERVICE PROVIDERS

The authorised waste reception operators are Komunalne usluge Cres Lošinj d.o.o. and METIS d.d. Waste collection is arranged through the ACI Marina Cres reception.

5 PROCEDURE FOR DELIVERY OF WASTE FROM SHIPS

Users must retain all waste until arrival at the marina and dispose of it separately in the appropriate designated containers or hand it over to authorised personnel. All waste from the vessel must be delivered before departure. For waste requiring special collection, users must contact the marina reception in advance.

6 COST RECOVERY SYSTEM

Delivery of waste from vessels is free of charge, except for the emptying of grey-water tanks, which is charged according to the current price list.

7 FEES AND BASIS OF CALCULATION

Emptying of grey-water tanks is charged according to the current ACI Marina Cres price list. Information on the current fee is available at the marina reception.

For further information, please contact the ACI Marina Cres reception.
