

ACI MARINA PIŠKERA

SUMMARY OF INFORMATION FROM THE WASTE RECEPTION AND HANDLING PLAN

Information for port users – Article 61(4) of the Ordinance (Official Gazette 72/2021)

1 LOCATION OF PORT RECEPTION FACILITIES

Municipal waste containers are located within the marina. The marina has a portable mobile facility for sewage reception, while waste oils and other waste requiring special reception are collected by an authorised operator.

2 WASTE COLLECTION HOURS

Waste is collected during the marina's operating period, Monday to Sunday, 24 hours a day during the summer season. Waste oils and sewage are collected on call, as required.

3 TYPES OF WASTE AND SERVICES AVAILABLE

Mixed municipal waste, waste oils and sanitary sewage are regularly accepted. Other types of waste may be accepted with prior notice, where suitable reception conditions are available.

4 CONTACTS – OPERATORS AND SERVICE PROVIDERS

Authorised operators/service providers: MURTELA d.o.o.: +385 22 436-521; petar.jezina@murtela-murter.hr; CIAN d.o.o.: 021/540-190; cian@cian.hr (Environmental Protection Department: 021/540-192).

5 PROCEDURE FOR DELIVERY OF WASTE FROM SHIPS

Users may dispose of municipal waste in the appropriate containers without prior notice. Waste oils and sewage are collected on call by an authorised company or by using the marina's mobile facility. All waste must be delivered before departure.

6 COST RECOVERY SYSTEM

Users bear the costs of providing and using waste reception equipment and facilities by paying an indirect waste reception fee.

7 FEES AND BASIS OF CALCULATION

For vessels with a contracted nautical berth, the fee amounts to 1% of the berth fee under the berth contract; for vessels in transit, it amounts to 1% of the berth price, irrespective of the actual delivery of waste.

For further information, please contact the reception of the relevant ACI marina.
